

# Data Mining Brief Project Description

**Project Title:** Hazards Forecast using Azure ML

We are team of 3 aspiring to build a project using AZURE ML which forecasts about the HAZARDS that are occurred due to weather or any hydrologic hazardous events. These are issued for the protection of life and property and for the enhancement of national economy. The services in this forecast are updated every 2 hours. The moment in time that each forecast represents is relative to when the forecasts are updated, not necessarily relative to now.

## Team Members:

Sai Swetha somi

Prathyusha Hari

Manoj Kumar Goud Sowdari
